

Art 1 ----Bailey art Watercolor techniques assignment.

Objective: to practice watercolor painting.

1. Divide a piece of watercolor paper by drawing about 20 boxes. (make a grid)
2. Use the watercolor techniques sheet to practice the technique in the boxes.
3. Get water, brushes, paper towels, and a container for water.
4. Extra things that you can use if you have them: salt, masking tape, rubber cement, plastic wrap, white color crayon.
5. Read the basic watercolor techniques handout and do each technique in a box. Label the technique.

Example: all of the techniques are not on this example as it took two sheets to complete the assignment. Do the best you can with what you have. If you do not have rubber cement for example, then skip that one.
