

Art Bailey – All art levels 1 through 4. This work sheet is worth 30 points.

Use colored pencils to fill in the color schemes.

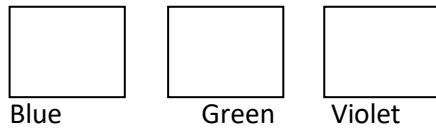

What color do I use? This is a question that only the artist can answer as color is personal. But there are established color plans or schemes that are used in fashion, industrial design and fine art. These color schemes are based on the 12 color wheel system

Fill in the colors for the color schemes

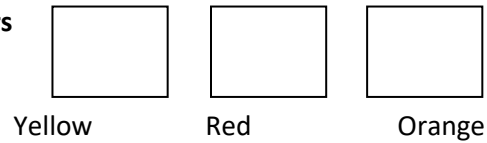

Color schemes

1. Color temperature

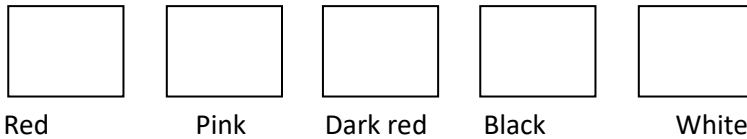

- **cool colors**

- **B. warm or hot colors**

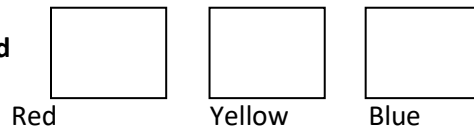

2. Monochromatic – a hue and all of its tints and shades, plus black and white

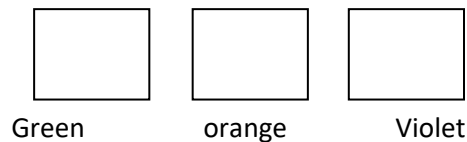

3. Triad– three colors evenly spaced.

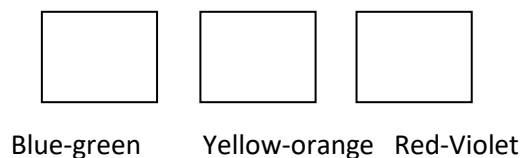

- **A. Primary triad**

- **B. Secondary triad**

- **C. Tertiary triad** - There are two sets.

yellow-green blue-violet Red-orange

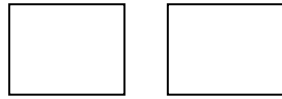

4. **Complementary colors**

Two colors and tints-shades

Red Green Blue Orange

There are three sets.

Yellow Violet

5. **Slit Complement**

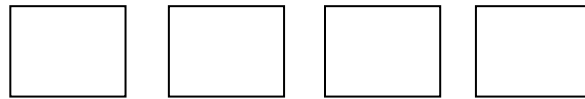

three hues and tints
and shades

Yellow Blue-Violet Red Violet

Split complement – Sometimes a set of complementary colors is too intense. To still use Yellow and violet, Use the two violets on either side of the regular violet.

6. **Analogous colors**

yellow-green Yellow yellow-orange Orange

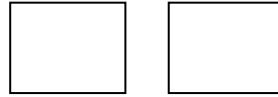

Three or four colors that are right next to each other on the color wheel. This is the most harmonious color scheme.

7. **Plastic colors** - This color scheme is named for the push and pull of the colors. Cool colors recede to the back while warm colors come forward.

Foreground yellow red orange **background** blue green violet

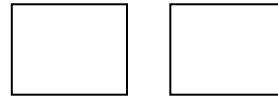

8. **local color** - What you see is what you paint.

Trees – green sky - blue

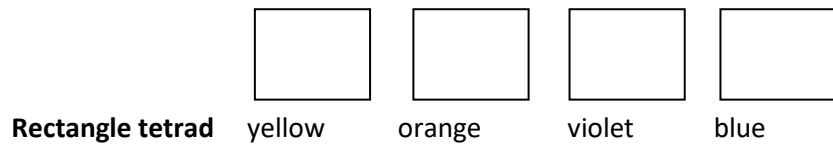

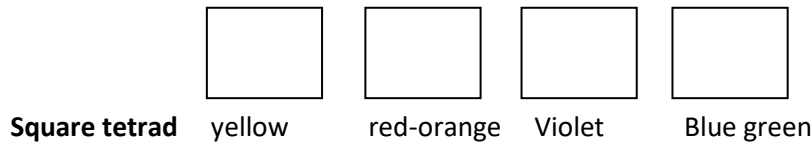

9. **Subjective color** – what ever color you like to use.

For example – violet trees and green sky.

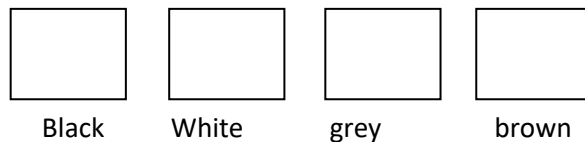

Trees – violet sky - green

10. **Tetrad / double complement**- This is when two complementary colors are used in the same work.

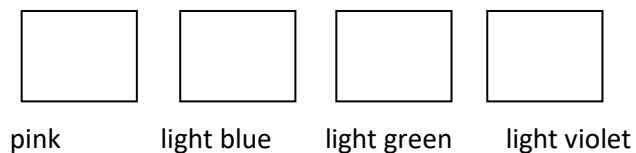

11. **neutral colors** - This color scheme can be used by itself or it can be added to any other color scheme – The other color scheme will still stay true. Example – A primary color scheme of red, blue and yellow will still be a primary color scheme when black and white are added.

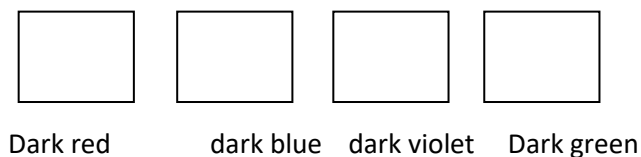

12. **Color Value**

high key colors – pastels.

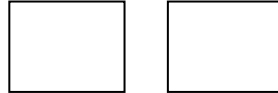

low key colors

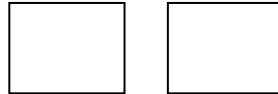

13. Emotion

Depression – Usually cool colors

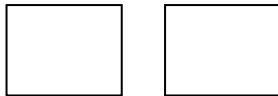

light blue dark blue

Passion- Usually warm or hot colors

pink red

14. Color intensity

yellow dark yellow - shade

Note- In color schemes, the tints and shades can also be used along with the hue. Example: primary triad of red, blue and yellow, can use light red or pink, along with a dark red or shade. It would be the same with blue and yellow.
